robot.io

A next generation online platform to drive volunteer engagement, collect program feedback and design brilliant STEM outreach experiences

what?

- Robust volunteer timesheet management
- Volunteer resource scheduling (admin)
- Volunteer rewards and recognition
- Volunteering portfolio and profile
- Session engagement & feedback capture
- Participant portal

ROBOT.IO DEVELOPMENT

roadmap

MANAGE

Design core volunteer timesheets and resource scheduling administration to 'manage' operations

June 2018

ENGAGE

Drive volunteer attachment to the organisation by creating incentives. Rewards, recognition and portfolio

Sep 2018

DRIVE

Connect with session participants. Student portals allow sharing of relevant content, virtual social interaction and capturing of feedback

Dec 2018

results

Efficient management and admin of events and activities

Engaged volunteer base for organisational growth

Participant experience driven programs of work for quality student outreach
